

Essential Overview of

# Clinical Trials Data

## About Definitive Healthcare

Definitive Healthcare is the leading supplier of data on the U.S. healthcare provider market. Our platform offers the highest-quality and most comprehensive data available on hospitals, physicians, and other providers. Clients have access to essential insights and analytics enabling shorter sales cycles, precise physician network development, and powerful segmentation across the healthcare continuum.

## Key Overview of Clinical Trials Data:

- Access an integrated view of clinical trials intelligence across proprietary hospital and physician data
- Find qualified physicians in your geographic area with the patient population you need
- Identify facilities in your region with an eligible patient population
- Leverage existing trial intelligence to locate ideal areas to begin a new trial
  - Avoid areas with multiple similar trials in progress
  - Target facilities and providers with clinical trial experience
- Analyze clinical trials by county with our interactive oncology dashboard
- Ensure proper enrollment to increase the chance of your trial's success
- Research opportunities by therapy area, trial phase, start and end dates, enrollment, site, keywords, and other filters

### The Definitive Advantage

- 100% healthcare industry focused
- Highest-quality data, updated daily
- Proprietary intelligence across the healthcare continuum
- In-depth & interactive analytics
- Full coverage from hospitals & physicians to post-acute care facilities
- Easy-to-use, customizable data solution
- Award-winning Customer Success team

### Definitive Databases

- 8,800 Hospitals & IDNs
- 148,000 Physician Groups
- 1.7M Physicians & Allied Care Providers
- 25,800 Surgery & Imaging Centers
- 91,600 SNFs, ALFs, HHAs & Hospices
- 3,200 ACOs, HIEs & Payors
- 40,000 Urgent Care, Retail & Other Clinics  
and much more

**DEFINITIVE HEALTHCARE**

Powerful intelligence on hospitals, physicians, and healthcare providers

# Leverage Our Data To:

Access the most essential clinical trials data, fully integrated with proprietary intelligence on hospitals and physicians

Identify opportunities using a custom search to find experienced physicians, facilities, and networks

Improve your chances of success by filtering out inexperienced HCPs and sites with similar trials

Analyze data on all phases of clinical trials, from pre-clinical studies through monitoring of long-term side effects

Gain insights on clinical trial participation by hospital, integrated delivery network, physician, and physician group

Streamline the processes of finding partner facilities and physicians, identifying patients, and more

## Example of Clinical Trial Summary:

**Lenvatinib and Iodine Therapy in Treating Patients With Radioactive Iodine-Sensitive Differentiated Thyroid Cancer**

**General Information:**

Clinical Trial Phase: Phase 2  
Study Type: Interventional  
Trial Status: Not Yet Recruiting  
Enrollment: 30

**Study Timeline:**

Start Date: 2018-07-01  
Primary Completion Date: 2020-04-30  
Completion Date: 2021-04-30

**Details:**

ClinicalTrials.gov Identifier: NCT03506048  
Funding Source: Other  
ClinicalTrials.gov Profile

**Study Design**

Allocation:  
Intervention Model: Single Group Assignment  
Masking: None (Open Label)  
Primary Purpose: Treatment

**Summary**

This phase II trial studies how well Lenvatinib works when given together with standard of care iodine I-131 in treating patients with radioactive iodine-sensitive differentiated thyroid cancer. Lenvatinib may stop the growth of tumor cells by blocking some of the enzymes needed for cell growth.
